Key Insights

The Meredith Poll conducted a survey of North Carolina registered voters. The online sample--from Dynata--used a census quota to get our respondents. After the survey was completed, we **weighted** the survey for **gender, party affiliation, geographic location, race and ethnicity,** and **education** so that our sample most closely resembles North Carolina.

The sample had 1225 respondents, giving us a confidence interval of +/-2.7%. The survey was in the field April 25-27. The data collection was completed one day prior to early voting starting in NC for the primary election.

The 2022 primary elections in North Carolina for federal offices

The Republican US Senate primary in North Carolina has garnered most of the attention in the state with former president Donald Trump endorsing Ted Budd and coming to the state to rally for him. Our poll results indicate a high degree of interest in the primaries generally and the Republican senate primary specifically, but it is worth noting that midterm primary turnout in North Carolina averages about 15% over the last three midterm primary elections. In our survey, over 78% of respondents indicated some interest in voting in the primary elections with almost half indicating that they would vote in the Republican primary.

Of the respondents indicating an interest in voting in the Republican primary, just under one-third (32.7%) indicate they will vote for Ted Budd, while 25.7% indicate they will vote for former Governor Pat McCrory. It is worth noting that over one-third of respondents indicate they were not sure, meaning that the race could still go either way. Budd runs strongest with the most conservative Republican voters, those in rural parts of the state, and those with lower educational attainment, while McCrory does better with more moderate Republican voters and those in urban areas.

Poll Director David McLennan states: "The Trump endorsement of Budd is significant. Public opinion polls of this race during the winter showed McCrory with a lead, but Trump's presence in the race, as well as heavy spending by independent expenditure organizations, such as the Club for Growth, against McCrory seems to have reversed Budd's fortunes."

The Democratic US Senate primary appears to be a shoo-in for former NC Supreme Court Justice Cheri Beasley, as her lead over Marcus Williams and the rest of the field is almost 40 points.

In our survey, instead of asking about specific races for the US House of Representatives, we asked the "generic ballot" question—asking whether people generally supported Democratic, Republican, or other party candidates in House races. In our survey, the generic Republican candidates had a 5.9-point lead over the generic Democratic candidates.

David McLennan notes: "The generic ballot results point to a very difficult year for Democrats. In previous election cycles, generic Democratic candidates were generally favored by small margins over generic Republican candidates. Since NC-13 appears to be in one swing House district in the state, it seems like the Republican nominee will head into the general election campaign with a slight advantage."

Satisfaction with direction of the country and state

By an almost three-to-one margin, North Carolinians are dissatisfied with the direction of the **country**. Less than 27 percent of respondents—a low figure for the history of the Meredith Poll—are satisfied with the direction of the country. Over half of Democratic respondents, particularly those who are most liberal--were satisfied with the direction of the country, but fewer than one-in-five Republicans and Unaffiliated voters were satisfied. Less than half (48%) of the Black respondents were satisfied, but most respondents of other

racial and ethnic groups were dissatisfied. Younger voters (40 years old and younger) indicated more satisfaction than older voters by a large margin and those who identified as more liberal were more satisfied than those who were moderate or more conservative.

"The fact that only liberal Democrats are satisfied with the direction of the country," David McLennan states, "with every other demographic group with significant levels of dissatisfaction with the direction of the country poses a large issue for Democrats in a midterm election year. A majority of North Carolinians do not identify as liberal, so issues favored by liberals, such as forgiving student loans, may not be issues that will help Democratic candidates in 2022."

North Carolinians are less dissatisfied with the direction of the **state** (a net satisfaction of -3.8 percentage points). Over 41 percent of respondents were satisfied with how things are going in North Carolina with just over 60 percent of Democrats being satisfied, but less than 30 percent of Republicans and just under one-third of unaffiliated voters agree with the direction of the state.

Although more people are satisfied with the direction of the state, the partisan divide demonstrates that most people see the state through the same political lens that they see the country. Despite Republicans holding a majority in the state legislature, Republican respondents in the state generally perceive the direction of the state as negatively as they perceive the direction of the country.

Approval of President Joe Biden and Governor Roy Cooper

President Joe Biden's job approval in North Carolina has dropped significantly since the last Meredith Poll with just over 40 percent of respondents approving of his job as president. His net negative approval (-14 points) rivals the worst net approval of former President Trump—just prior to the 2018 midterm elections.

The partisan divide is predictable with 80 percent of Democrats approving of the job that Joe Biden is doing as president (down from almost 88% in the fall), with only 13 percent of Republicans, and 30 percent of unaffiliated voters approving of Biden's job performance (down from 42% in the fall).

There are other divides in Biden's job approval. Women consider Biden to be doing better than do men by over 11 points. Those under the age of 40 consider Joe Biden to be doing better than do those over 40 by over 9 points.

"The reality is that Joe Biden's approval numbers are a drag on Democrats in an election year. It has to be particularly troublesome for Democrats that Biden has lost 12 points in his approval from unaffiliated voters and seen a sharp drop in the support of Hispanics. Even Black voters, thought to be Biden's salvation in 2020 have had their support decline from the mid-80s to the upper 60s," said David McLennan.

Governor Roy Cooper continues to have relatively strong approval, given the strong partisan divide within the state. His net approval ratings are over 13 points (50.6% approve v. 37.4% disapprove). Just over 77 percent of Democrats approve of the job Cooper is doing, while 46 percent of unaffiliated voters do. On the other hand, 60 percent of Republicans disapprove of the job Cooper is doing, but their intensity in their disapproval is not as strong as it is for President Biden, with under 30 percent of all Republicans strongly disapproving of Cooper's performance as governor.

"Governor Cooper continues to be a bright spot for Democrats in North Carolina. His approval continues to run ahead of President Biden's and Cooper has stronger favorability among groups that Biden has lost support with, including unaffiliated voters and Hispanics," said David McLennan.

Political Partisanship and the Desire for a Viable Third Party

Although political partisans agree on very little, Democrats and Republicans, as well as others, agree that the country is more divided than in the past. Over three-quarters of the respondents indicated that partisanship was worse today than in the past with over 80 percent of Republicans and unaffiliated voters feeling this way and just under two-thirds of Democrats. Almost half of the respondents indicated that they thought political partisanship would be worse in five years, with one-quarter thinking it will be the same.

This polarization is driven by many factors—media fragmentation, politicians who no longer use compromise, and even fundamental beliefs about what is true—but it is noteworthy that this is the highest level of pessimism expressed about the inability of the country to come together since we began asking questions about polarization in 2015. Even recent events such as bi-partisan support for the Ukrainians against Russia do not seem to be affecting North Carolinians' views about partisanship.

Although there has been a slight increase in the belief that there is more political partial partial, two other findings are worth noting. First, a plurality of North Carolinians (38.1%) feel that the Democratic Party is more extreme than the Republican Party (the reverse was true at the end of the Trump administration).

"Even though Democrats in Washington have not been able to pass most of the Biden administration's most progressive policies, the perception that Democrats are moving to the left is hurting the party in North Carolina. Just under 30 percent of North Carolinians describe themselves as very or somewhat liberal, so the "liberal" label should hurt Democratic candidates at the ballot box in 2022 and beyond, unless some changes are made," argues David McLennan.

The increasing perception that the parties are increasingly polarized leads many North Carolinians (55%) to believe that a viable third party is needed to represent the views of citizens. Although third parties do exist in the state—the Libertarian and Constitutional parties, for example—these parties rarely have the visibility or resources to compete against the Democratic and Republican parties.

David McLennan believes "third parties have a difficult pathway to electoral success in North Carolina and in the nation, but an increasing number of North Carolinians, including younger voters, think the major parties are not serving them well."

Policy issues in 2022

Expanding Medicaid

Over 70 percent of North Carolinians think the state should join the thirty-eight other states in expanding Medicaid and giving health care access to more lower income citizens. Almost 90 percent of Democrats support this expansion, but a majority of Republicans, including those who consider themselves the most conservative also support Medicaid expansion.

"Over the last few years, support for expanding Medicaid has increased in the state. There appears to be some movement in the General Assembly, even among Republicans who have argued against Medicaid expansion in the past, to expand access to health care." David McLennan states. "Whether the legislators call it an expansion of Medicaid or something else, the public opinion would suggest this to be a popular move."

Legalizing marijuana

For years bills have been filed in the General Assembly to legalize marijuana in some form—medical or recreational—but these bills have rarely advanced beyond the filing stage. With many states legalizing some or all forms of marijuana use and Congressional leaders, like Chuck Schumer, now talking about some form of marijuana legalization or decriminalization, North Carolina may be on the verge of reconsidering its long-standing hesitancy on this issue.

Over 60 percent of respondents in our survey favor legalizing medical marijuana use or both medical and recreational marijuana use. Only 13 percent of those surveyed wanted to keep all forms of marijuana illegal. The support for some form of marijuana legalization is broad and cuts across all demographic and political lines.

Abortion laws after the potential overturn of Roe v. Wade

Supreme Court watchers now believe that Roe v. Wade may be overturned in the next few weeks with a decision on Whole Women's Health v. Jackson. If Roe is overturned and the issue of abortion rights is returned to the states, North Carolina may ultimately pass a law that directs women and health care providers about the legal course of action in this area. Many states around the country have preemptively passed legislation either banning abortion or severely limiting the right of women to have abortions.

Just over half of the North Carolinians surveyed (52.6%) want North Carolina to pass a law keeping the current provisions of Roe or expanding abortion access further. Just under 40 percent of respondents want a law that severely restricts access to abortion or makes it illegal in all circumstances.

This is one of the most partisan findings in the survey. Over three-quarters of Democrats want to keep Roe's provisions or expand abortion access, while almost 70 percent of Republicans want to restrict access to abortion or make it illegal. Also, over two-thirds of the youngest respondents (18-24 years of age) want to keep Roe's provisions or expand access to abortions, with older voters being more evenly split between maintaining access to abortion versus restricting or eliminating access.

"The expected decision by the conservative Court to overturn Roe will eventually lead to a very divisive fight over abortion law in North Carolina. Currently, the Republicans cannot overturn a veto from Governor Cooper, but if they pick up a few more seats and get a veto-proof majority, we may see North Carolina go the way of Texas or other states and immediately try to restrict abortion rights," says David McLennan, even if most of the state's citizens favor protecting abortion rights."

"Don't Say Gay" in NC

Another "culture war" issue dividing North Carolinians is what is popularly referred to as the "Don't Say Gay" law. This Florida law puts restrictions on public school teachers and employees discussing issues surrounding sexual identity, particularly in the lower grades. It allows parents to sue the school system if they believe teachers and staff members violate this law.

Almost half of those surveyed (47.1%) think that elementary school parents should be able to sue the schools if teachers and staff members discuss issues related to sexual identity. When asked if they supported this kind of law for all grade levels, North Carolinians were evenly split (41.5% support; 41.7% oppose).

Many demographic and political factors influenced support for this type of legislation. A majority of Republicans (almost 60%) support this legislation as it applies to elementary schools with large majorities of self-identified conservatives supporting this. Those identifying as Hispanic/Latinx also supported this type of legislation, as did older respondents.

"Public education will continue to be a political battlefield in 2022 and beyond," argues David McLennan. "Cultural issues such as discussing sexual identity, banning transgender athletes from participating in school sports, and banning books with certain content are all part of the culture wars being fought in electoral politics. As we saw in the Virginia governor's race last year, Republicans can be very successful in appealing to parental rights on a host of educational topics."

Constitutional limits on older candidates

With the possibility of two octogenarians—Joe Biden and Donald Trump—being the major party nominees for their respective parties in 2024 and the concerns raised by some about having a sitting president in his

eighties, we decided to ask North Carolinians if they thought the Constitution should be amended to put an upper age limit on federal elected officials (e.g., president and members of Congress). Over three-quarters of those surveyed thought an upper limit was advisable. Support for an upper limit was universal with political partisans, people with all levels of educational attainment, and, most interestingly, respondents across all age categories—young to old—supporting a maximum age for serving.

We also asked what the maximum age should be for those serving in the presidency and Congress. Although a slight plurality of respondents indicated that 50 should be the maximum age for those serving in those offices, a majority of respondents thought the maximum age should be 65-75. Also interesting was that Democrats, women, and those will less educational attainment felt that the maximum age should be younger, while Republicans, males, and those with more education felt the maximum age should be higher.

David McLennan states: "My students often ask me why the Constitution sets a minimum age for members of Congress and the presidency, but not a maximum age. I always tell them that the Founders' life expectancy was so much shorter than the modern life expectancy that they never considered people serving in Congress and, potentially, the White House in their eighties. North Carolinians seem to agree with my students that the eligibility requirements in the Constitution should be revisited."

Budget priorities

In polling it is difficult to get an accurate assessment of what issues people really consider to be most important. Almost all North Carolinians will identify issues like public education and law enforcement to be top priorities. In this survey, we tried a different approach to getting at the priorities of North Carolinians. We asked them to spend a hypothetical \$100 across four different budget areas: health care, transportation/infrastructure, law enforcement, and education. We allowed them to allocate as much or as little of the \$100 across those areas as they saw fit.

In our results, education and health care were the two top priorities for all respondents, with law enforcement a close third. Transportation/infrastructure was the lowest of the four. However, when broken down by political party and gender, there were different priorities:

<u>Democrat</u>	<u>Republican</u>	<u>Unaffiliated</u>	<u>Men</u>	<u>Women</u>
Education	Health care	Education	Law enforcement	Education
Health care	Law enforcement	Health care	Education	Health care
Transportation	Education	Law enforcement	Transportation	Law enforcement
Law enforcement	Transportation	Transportation	Education	Transportation

Distracted driving laws in NC

On the issue of a law to ban the use of handheld devices while driving, North Carolinians remain strongly in favor of such as bill being passed. Well over 90 percent of the respondents believe mobile phones are a major contributor to car accidents. All demographic groups, including the youngest respondents, agreed that using a mobile phone while driving leads to accidents.

As with previous Meredith Polls (2018 and 2021), over 80 percent of respondents support a hands-free law being passed in North Carolina that would make it illegal to hold a mobile device while driving. The support cuts across all demographic and political groups. Likewise, over 80 percent of respondents are frustrated that the state has not passed a distracted driving law, and well over a third of North Carolinians state that they would not vote for a legislator who voted "no" on a distracted driving bill.

McLennan states: "Since we first started asking these questions four years ago, the results have been very consistent—citizens see the negative effects of using a mobile device while driving and strongly support legislation banning such behavior. Although most voters do not put distracted driving legislation at the top of the list of important political issues in an election year, it is significant that a large number of voters are willing to punish elected officials at the ballot box."

N=1233

Policy Issues

Now we are going to ask you about some policy issues that are under consideration in the United States and North Carolina.

Constitutional limits on older candidates

The United States Constitution sets a minimum age for a person to run for the United States House of Representatives (25), the United States Senate (30), and the United States President (35), but does not set a maximum age. Do you believe there should be a maximum age for a person to run for federal office?

Response	Number	Percentage
Yes	899	73.3
No	232	18.8
Don't know	96	7.8

N=1227

What should be the maximum age for a person to run for a federal office (US House, US Senate, or president)?

Response	Number	Percentage
50 or younger	213	21.3
55	86	8.6
60	137	13.7
65	207	20.7
70	160	16.0
75	96	9.6
80	34	3.4
85 or older	6	0.6
Don't know	59	5.9

N = 998

Expanding Medicaid

Currently 38 states have expanded Medicaid coverage to allow more of their citizens to have healthcare coverage. North Carolina is one of 12 states that has not done so. Do you think North Carolina should pass a law to expand Medicaid coverage, giving more North Carolinians access to healthcare?

Response	Number	Percentage
Yes	869	71.0
No	211	17.3
Don't know	143	11.7

N=1223

Abortion laws if Roe v. Wade is overturned

If the United States Supreme Court overturns the 1973 Roe v. Wade decision and the power to regulate abortion returns to the states, what kind of law would you prefer that North Carolina does in regards to abortion law:

Response	Number	Percentage
Expanding access to abortion services so that there is no restrictions on a women's right to abortion.	313	25.6
Maintain the spirit of Roe v. Wade so that a woman can access abortion services freely up to 22 weeks, but there are restrictions after that.	329	27.0
Make access to abortion very restricted - making it illegal after 15 weeks.	111	9.1
Severely limit the access to abortions so that abortion would only be allowed if the woman's life is endangered by her pregnancy or the pregnancy is caused by rape or incest.	241	19.7
Make abortion in all cases illegal.	122	10.0
Don't know	107	8.7

N=1223

Legalizing marijuana

18 States plus Washington, D.C., allow medical and recreational usage of marijuana by adults, and 17 more states allow only medical usage of marijuana by adults. The current law in North Carolina allows cannabidiol (CBD) only, which comes from marijuana but carries no intoxicating effects. What do you think the law regarding marijuana in North Carolina should be?

Response	Number	Percentage
Keep it the same - CBD only	223	18.3

Response	Number	Percentage
Expand access to medical marijuana	278	22.8
Expand access to medical and recreational marijuana	461	37.7
Make all forms of marijuana, including CBD, illegal	158	13.0
Don't know	100	8.2

N = 1220

"Don't Say Gay" law in NC

Would you support or oppose legislation that would allow parents to sue school districts if sexual orientation or gender identity was discussed in elementary school classrooms?

Response	Number	Percentage
Support	574	47.1
Oppose	460	37.7
Don't know	185	15.2

N=1219

Would you support or oppose legislation that would allow parents to sue school districts if sexual orientation or gender identity was discussed in school, regardless of grade level?

Response	Number	Percentage
Support	504	41.5
Oppose	507	41.7
Don't know	206	16.9

N=1217

Prioritizing legislation

Pretend as though you have a budget to spend on government services, and you can only spend \$100. How would you allocate your \$100 among the policy areas below?

- a. Healthcare
- b. Transportation/infrastructure
- c. Law enforcement
- d. Education

#	Field	Mean
1	Health care	26.25
2	Transportation/infrastruct ure	20.17
3	Law enforcement	24.17
4	Education	29.41

Distracted driving laws

Among these options, which do you consider the most serious problem you face currently when you drive on North Carolina's highways and roads:

Response	Number	Percentage
Excessive speeding by other motorists	172	14.5
Poor maintenance of roads and highways	313	26.4

Response	Number	Percentage
Insufficient law enforcement presence to catch violators	97	8.2
Trash and debris along the roadways	74	6.2
High volumes of traffic causing delays	185	15.6
Too many motorists holding their smart phone while driving	276	23.2
Don't know	72	5.6

N=1189

Distracted driving refers to any behavior that keeps a driver from fully focusing while operating a motor vehicle. One specific form of distracted driving is a driver holding a smart phone in their hand while behind the wheel. Now, based on your own experience driving on the roads and highways of North Carolina, which of the following statements most closely reflects your own opinion:

Response	Number	Percentage
I am extremely concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	583	49.5
I am somewhat concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	451	38.3

Response	Number	Percentage
I am not concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	85	7.2
Don't know	61	5.1

N=1180

A hands-free driving law would prohibit holding a smart phone in your hands while driving a vehicle. Using the device without holding it for making phone calls, or playing music, or navigation would be permissible, but no checking social media, watching videos, playing games or surfing the internet while driving. Which of the following statements most closely reflects your own opinion of a hands-free driving law.

Response	Number	Percentage
I strongly support North Carolina having a hands- free driving law	700	59.1
I somewhat support North Carolina having a hands- free driving law	282	23.7
I somewhat oppose North Carolina having a hands- free driving law	71	6.0
I strongly oppose North Carolina having a hands- free driving law	65	5.5
Don't know	67	5.7

N=1185

There has been hands-free driving law proposed during every state legislative session since 2009, but there is still no hands-free law in North Carolina. There is currently legislation, Senate Bill 20, that would create a hands-free driving law for North Carolina, but so far no discussion or debate has been allowed on this bill. Knowing this, which of the following most closely reflects your opinion:

Response	Number	Percentage
It concerns me a great deal that the state legislature is not considering enacting a hands-free driving law as proposed by Senate Bill 20, and they definitely should do so this year.	580	48.9
It concerns me that the state legislature is not considering enacting a hands-free driving law as proposed by Senate Bill 20, and they definitely should do so this year.	371	31.2
It doesn't concern me at all that the state legislature is not considering enacting a hands-free driving law as proposed by Senate Bill 20.	119	10.0
Don't know	117	9.9

N=1187

If you were talking to your state legislative representative about distracted driving on North Carolina roads and highways, and the legislator said they do NOT support a hands-free driving law, which of the following most closely reflects what your reaction would be:

Response	Number	Percentage
I would be very unlikely to vote for them in the upcoming election.	428	36.1
I would be somewhat unlikely to vote for them in the upcoming election.	332	27.9
It would not impact whether or not I voted for them in the upcoming election.	276	23.3
Don't know	151	12.7

N=1187

Support for Political Leaders

Now we are going to ask you some questions about specific political leaders.

Biden support

Do you approve or disapprove of the way Joe Biden is handling his job as president?

Response	Number	Percentage
Strongly approve	197	16.6
Approve	287	24.1
Disapprove	200	16.9
Strongly disapprove	440	37.1
Don't know	63	5.3

N=1187

Cooper support

Do you approve or disapprove of the way Roy Cooper is handling his job as governor?

Response	Number	Percentage
Strongly approve	243	20.5
Approve	357	30.1
Disapprove	248	20.9
Strongly disapprove	196	16.5
Don't know	142	11.9

N=1186

2022 Primary

Are you planning on voting in the primary elections in 2022?

Response	Number	Percentage
Definitely yes	625	52.7
Probably yes	309	26.1
Probably not	157	13.3
Definitely not	94	7.9

N=1185

Which primary are you planning to vote in?

Response	Number	Percentage
Democratic	383	40.9
Republican	454	48.5
Other	99	10.6

N=936

Democratic US Senate primary

Which Democratic candidate for the US Senate seat in NC would you be most likely to vote for?

Response	Number	Percentage
Cheri Beasley	187	49
Marcus Williams	36	9.4
Someone else	24	6.3
Don't know	135	35.3

N = 392

Republican US Senate primary

Which Republican candidate for the US Senate seat in NC would you be most likely to vote for?

Response	Number	Percentage
Marjorie K. Eastman	16	2.7
Pat McCrory	151	25.7
Mark Walker	38	6.5
Ted Budd	192	32.7
Someone else	34	5.8
Don't know	198	33.7

Demographics

Now we would like to ask you some questions about you.

County

What county do you live in?

Response	Number	Percentage
Urban	450	38
Rural	355	30
Suburban	357	30
Prefer not to say	23	2

N=1185

Native

Were you born in North Carolina, or somewhere else?

Response	Number	Percentage
Born in NC	663	56.1
Born somewhere else	518	43.9

N=1181

Gender

What is your gender?

Response	Number	Percentage
Male	629	53.3
Female	539	45.7

Response	Number	Percentage
Third gender/non-binary	9	.8
Prefer not to say	3	.3

N=1180

Race/Ethnicity

What is your race/ethnicity?

Response	Number	Percentage
White	807	68.4
Black	271	23
Hispanic/Latinx	29	2.4
Other	65	5.5
Prefer not to say	8	0.7

N=1180

Level of Education

What best describes the level of education you last completed?

Response	Number	Percentage
Less than high school diploma	38	3.2
High school diploma	252	21.3
Some college	382	32.3
Bachelor's degree	302	25.5
Graduate or professional degree	207	17.5
Prefer not to say	3	.3

N=1184

Age

What is your age?

Response	Number	Percentage
18-24	121	10.3
25-40	403	34.1
41-56	290	24.6
57-75	309	26.2
76+	57	4.8

Response	Number	Percentage
Prefer not to say	0	0

N=1180

Political ideology

How would you describe yourself?

Response	Number	Percentage
Very liberal	165	14
Somewhat liberal	175	14.8
Somewhere in the middle	407	34.5
Somewhat conservative	233	19.8
Very conservative	199	16.9

N=1179

Party Affiliation

What political party do you most identify with?

Response	Number	Percentage
Democratic	411	34.8
Republican	441	37.3
Unaffiliated	278	23.5
Other	23	2
Don't know	28	2.4

Now we are going to ask you about some policy issues that are under consideration in the United States and North Carolina.

Policy Issues

Maximum age for elected officials

The United States Constitution sets a minimum age for a person to run for the United States House of Representatives (25), the United States Senate (30), and the United States President (35), but does not set a maximum age. Do you believe there should be a maximum age for a person to run for federal office?

Expand Medicaid

Currently 38 states have expanded Medicaid coverage to allow more of their citizens to have healthcare coverage. North Carolina is one of 12 states that has not done so. Do you think that North Carolina should pass a law to expand Medicaid coverage, giving more North Carolinians access to healthcare?

North Carolina's response if Roe v. Wade overturned

If the United States Supreme Court overturns the 1973 Roe V. Wade decision and the power to regulate abortion returns to the states, what kind of law would you prefer that North Carolina does in regards to abortion law:

	Expanding access to abortion services so that there are no restrictions on a woman's right to abortion.	Maintain the spirit of Roe V. Wade so that a woman can access abortion services freely up until 22 weeks, but that there are restriction s after that.	Make access to abortion very restricted – making it illegal after 15 weeks.	Severely limit the right to abortions so that abortions would only be allowed if the woman's life is endanger ed by her pregnanc y or the pregnanc y is caused by rape or incest	Make abortion in all cases illegal	Don't know

Legalization of marijuana

18 states plus Washington, DC allow medical and recreational usage of marijuana by adults, and 17 more states allow only medical usage of marijuana by adults. The current law in North Carolina allows cannabidiol (CBD) only, which comes from marijuana but carries no intoxicating effects. What do you think the law regarding marijuana in North Carolina should be?

	Keep it the same - CBD only	Expand access to medical marijuana	Expand access to medical and recreational marijuana	Make all forms of marijuana, including CBD, illegal	Don't know

Distracted driving refers to any behavior that keeps a driver from fully focusing while operating a motor vehicle. One specific form of distracted driving is a driver holding a smart phone in their hand while behind the wheel. Now, based on your own experience driving on the roads and highways of North Carolina, which of the following statements most closely reflects your own opinion.

	I am extremely concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	I am somewhat concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	I am not concerned for my own safety given how many motorists I see holding their smart phone in their hand while driving.	Don't know

A hands-free driving law would prohibit holding a smart phone in your hands while driving a vehicle. Using the device without holding it for making phone calls, or playing music, or navigation would be permissible, but no checking social media, watching videos, playing games or surfing the internet while driving. Which of the following statements most closely reflects your own opinion of a hands-free driving law.

	I strongly support North Carolina having a hands-free driving law.	I somewhat support North Carolina having a hands-free driving law.	I somewhat oppose North Carolina having a hands-free driving law.	I strongly oppose North Carolina having a hands-free driving law.	Don't know

There has been hands-free driving law proposed during every state legislative session since 2009, but there is still no hands-free law in North Carolina. there is currently legislation, Senate Bill 20, that would create a hands-free driving law for North Carolina, but so far no discussion or debate has been allowed on this bill. Knowing this, which of the following most closely reflects your opinion.

	It concerns me a great deal that the state legislature is not considering enacting a handsfree driving law as proposed in Senate Bill 20, and they should definitely do so this year.	It concerns me somewhat that the state legislature is not considering enacting a handsfree driving law as proposed in Senate Bill 20, and they should probably do so this year.	It doesn't concern me at all that the state legislature is not considering enacting a hands-free driving law as proposed in Senate Bill 2	Don't know

Methodological Information

Mode: Online

Population: N.C. Registered Voters 18+

Dates in the field: April 25-27, 2022

Sample Size: 1225

Credibility Interval: +/- 2.7%

Weighting Variables (NC): Gender, Education, Location (Urban, Rural, and Suburban counties). Political Party, and Race and Ethnicity.

Procedures: The Meredith Poll used an online sample provided by Dynata. Participants were recruited into the sample by Dynata and received small amounts of compensation in exchange for their opinions. The survey was not an open-link, posted on social media, but rather was by direct invitation to a very large national pool of people who agree to take online surveys. More information about the Dynata panels and quality tests are available here. Quotas on demographic variables such as gender, race, etc. were applied prior to online survey commencement.

Online interviews were included in the final dataset if respondents spent a minimum length of time on the interview and particular sections, and if a respondent progressed through the entire

survey. Respondents were recruited to the survey with a generic description about the fall elections.

Credibility Interval

Unlike a traditional random digit-dial telephone survey, online surveys do not have traditional margin of errors. Nonprobability quota samples like these do not adhere to assumptions of random selection. To account for uncertainty inherent in any sample-based research design, we provide a credibility interval. More information about this technique can be found here. The credibility interval was calculated by inflating traditional confidence intervals by a design effect calculated using the squared sum of weights. For this North Carolina sample, this means: (1.0 * 2.7= 2.7). We round these values up for presentation of results. As with all surveys, Total survey error often exceeds sampling error.

Weighting Information

Weights were generated in Qualtrics using a technique known as iterative proportional fitting, also known as raking. The weight variable was calculated based on the variables in the table below.

The demographic information was obtained through self-report--respondents answered closed ended questions.

Census—we used Census estimates for weighting.

Age	
18-25	7.2%
26-40	15.2%
41-56	15%
57-75	23%
76+	6.7%

--------	--

51%
49%
67%
21%
12%
70%

Bachelor's degree or higher	30%
Location—county of residence	
Rural	39%
Urban	25%
Suburban	36%
Party Affiliation	
Democrat	34%
Republican	31%
Unaffiliated	35%

Other	.7%
-------	-----

Note: We use the NC Rural Center's categorization of NC counties. The urban counties are: Durham, Forsyth, Guilford, Mecklenburg, New Hanover, and Wake. The suburban counties are: Alamance, Buncombe, Cabarrus, Catawba, Cleveland, Cumberland, Davidson, Gaston, Iredell, Henderson, Orange, Pitt, Rowan, and Union. The remaining counties are rural.
